

Storm Eagle

(Mega Man X)

Hello, this is Luciano Renan here.

I hope you like to learn and play my arrangement of Storm Eagle, from Mega Man X.

It's a very nostalgic theme.

I had the challenge to transform the 16 bit version in a classical guitar version.

The result is a great challenge. The bass line is constant, so the thumb of the right hand will work a lot.

This is gonna be a good exercise to improve your techniques of both hands. Practice with patience and slowly until you get used with the notes.

I recommed to watch the original video while you're learning for you to have an idea of the fingering and to help you in case of doubts.

Here's the link:

Good luck and enjoy.

Thank you very much for your support,

Best regards,
