

# My Name is Nobody

(Ennio Morricone)

*Hello, friend.*

*This is my arrangement of another great theme of the legendary Ennio Morricone.*

*The main title of the movie:  
"My Name is Nobody"*

*This is very fun to play and comparing with my arrangements of the Dollars Trilogy themes this one is easier (but still a challenge).*

*Pay attention to the quick changes of the fingering patterns of the right hand (or left in case you're left handed).*

*You'll use a lot of barre chords, so keep practicing until you have enough strenght in your thumb's muscle.*

*I hope you like it!*

*I suggest you to watch the original video (number 54 of my channel) to help you in case of doubts about the fingering, shapes of the chords and to give you an idea about the interpretation.*

*Remember to subscribe,  
new videos and arrangements are always coming.*

*Best regards,*

*Luciano Renan*
